If GPA dips below 2.0, the instructor will work with the student to bring it up to at least a 2.0. The school Branch Manager will review academic progress on a weekly basis. Students will receive written notification of their progress at the end of each subject class. A student who is not making satisfactory progress as defined above at the completion of a subject class will be placed on academic probation for the next subject class. The school will counsel the student placed on probation prior to the student returning to class. The date, action taken, and terms of probation will be clearly indicated in the student's permanent file. If a student on academic probation achieves satisfactory progress for the subsequent subject class but does not achieve the required grades to meet overall satisfactory progress for the course, the student may be continued on academic probation for one more subject class. If a student on academic probation fails to achieve satisfactory progress for the first probationary subject class, the student's enrollment will be terminated.
